As a creation of only two products, palm leaves and water, our compostable, disposable palm leaf plates and bowls are completely non-toxic and chemical free. While we can't promise that your meal will be guilt-free, we can promise that your dinnerware will be!

## DURABLE & VERSATILE

VerTerra palm dinnerware can withstand hot food, liquids and oils. Aside from acting as a natural insulator, our dinnerware will not leak or impart taste.

## MICROWAVE & OVEN SAFE

VerTerra Palm Dinnerware can withstand up to 2 minutes in the microwave on a high heat setting or up to 45 minutes in the oven on 350° as long as they are at least 6" from the heat source.

## SUSTAINABLE

Our dinnerware is made from fallen palm leaves (that would otherwise be burned), steam, heat and pressure. No plants or trees are cut or harmed during this process.

## BIODEGRADABLE

VerTerra Dinnerware From Fallen Leaves will naturally biodegrade at home or in an industrial compost without using chemical agents.

## SUN RESISTANT

VerTerra's compostable, disposable palm leaf plates and bowls are completely sun resistant and perfectly safe to use at outdoor events, such as picnics, BBQs and festivals.

## COMPOSTABLE

Apart from being BPI-certified compostable, tests have shown that soil containing VerTerra compost enhances plant growth by over 15%!

# *An entrepreneurial spirit. A chocolate revolution. The perfect partnership.*

When Lindt happened upon the secret in 1879 that would effectively put Switzerland on the map as a top-tier chocolate manufacturer, Johann Rudolf Sprüngli took notice. Today Lindt & Sprüngli is a household name signaling bliss, quality and chocolate delight the world over. Today, the Lindt & Sprüngli brands create a unique product world with more than 2500 products. Our quality products are made in 11 production sites in Switzerland, Europe and the US and are distributed via 28 subsidiaries, 500 own retail shops and a comprehensive network of more than 100 distributors in more than 120 countries. Despite its global growth, Lindt & Sprüngli remains Swiss in its roots – in fact, the Swiss remain the biggest champions with each citizen consuming on average one Lindor truffle a day.

## Our History...

Since their introduction in 1941, M&M's have become an iconic American candy. M&M's is an abbreviation for the names of their creators, Forrest Mars and Bruce Murrie. Mars introduced the Peanut M&M in 1954, which was a significant year in the candy's history. The famous slogan "melts in your mouth, not in your hands" was introduced, and Mars unveiled the popular animated M&M's characters in television commercials. In 1998, M&M's became the "official candy of the Millennium," because MM means "2000" in Roman numerals. According to Mars, some 400 million M&M's are manufactured every day.

## *The Birth of the World's Most Famous Jelly Bean*

Back in 1976, a Los Angeles candy distributor had an idea for a jelly bean made with natural flavoring. He contacted the top candymakers at Jelly Belly who had a reputation for making the very best candies. The candymakers agreed to create a new kind of jelly bean -- intensely flavored throughout, with natural ingredients for flavoring. Within a few weeks, the first eight Jelly Belly flavors were born: Very Cherry, Lemon, Cream Soda, Tangerine, Green Apple, Raspberry, Licorice, and Blueberry. Funny enough they are still some of the most popular flavors made. Soon Jelly Belly became a favorite of Ronald Reagan, who eventually made the beans a staple in the Oval Office and on Air Force One. Jelly Belly was also the first jelly bean in outer space. Today, Jelly Belly is the world's #1 gourmet jelly bean of choice for all those with the most discerning taste, and made in 50 amazing and tasty flavors.
