

2023

# adidas collection

exclusively at **S&S** ACTIVEWEAR

# the GAME PLAN for a BETTER TOMORROW

adidas is known as a long-standing innovator in the sportswear industry. Now, they've taken the next step in their innovation to not only offer the best in fashion trends, but to also provide options that are better for the planet too.

Sustainability is more and more important to brand identity and distinction, and consumers are quickly taking note of the adidas game plan to end plastic waste. Consumers have started changing the way they think, and most importantly, the way they purchase.

The 2023 adidas collection features Recycled Polyester and BCI Cotton (Better Cotton Initiative). These fabrics can be found in styles that are perfect on the field or the sidelines, in the boardroom or the break room, as well as on the weekends. The adidas line is versatile enough for everyday life, while helping preserve our resources for a better tomorrow.

## ADIDAS BRAND LOGO

### GLOBAL ROLLING LOGO CHANGE FOR THE ADIDAS BRAND THROUGHOUT 2023

You've probably seen various versions of the adidas logo. From 1949 to today, adidas has tagged a few identities to their brand – all values attached being true. The very first logo was inspired by the very notion of a track-and-field spike with the, now signature, 3-Stripes (makes sense). Often times, "Sportschuhe" (or sports shoe) was written beneath the logo, hence the evolution to what you see here on the left. Each logo may feel ever-so-slightly apart from the other, but at the heart of it all is the spirit of innovation, movement, and expressing your style in whatever way that means.

Badge of Sport Logo

Sport Performance Logo

All new 2023 products will arrive with the new Sport Performance Logo. The Sport Performance Logo will begin coming in on existing styles as of 6/1/2023. The Performance logo now is the main brand mark of adidas. It's the uniting core and serves as the umbrella to all the brand segments. It represents the best product for the athlete.

# the POWER to CHANGE LIVES

## THE MISSION:

We need to change **our legacy**. We need to **end plastic waste**.

**10%**

of plastic ends up being recycled and another 10% ends up in our oceans

**12 YEARS**

left before the oceans die according to the United Nations

**350M**

tons of new plastic waste is created every year

**2030**

adidas will reduce the company's carbon footprint by 30%

(as compared to 2017)

By 2024, adidas will use **100% recycled polyester**, eliminating virgin polyester completely.
