CERAMIC LINED INNER WALL

- No metal taste
- Odor Free
- Easy to Clean
- Zero Flavor Transfer

Drinking from a stainless steel bottle is definitely the more sustainable and wiser way to go.

But... have you ever noticed that something is just a bit off after taking a drink? Does the cold water have just a small sting of a metallic aftertaste? We know you can feel it in your stainless steel coffee mug as well. At Asobu® we strive to **Elevate Your Everyday**, by making these small problems disappear. That is why we created our **PURAMIC** line of bottles and mugs. Once you use these ceramic-lined insulated bottles you won't be able to use a regular stainless steel bottle again.
